A Charter incorporating the "Liter-  
ary and Botanic-Medical College of  
the State of Ohio," with the most plen-  
ary University powers, was granted by  
an act of the Legislature in March,  
1839, since which time its Medical De-  
partment—the College of Physicians  
and Surgeons—has been in successful  
operation. It is the oldest Botanic-Med-  
ical College in the United States,  
and its patronage has been encouraged.  
The advantages for professional study  
and the acquisition of correct knowl-  
edge in Anatomy, Surgery, Practice  
of Medicine, and Obstetrics, are not  
surpassed by those of any other Medi-  
cal Institute in the United States. The  
Medical and Surgical Clinique attached  
to the University will afford opportu-  
nities for Hospital Practice, in addition  
to other similar facilities; and those  
persons requiring assistance in the o-  
perative departments, who will sub-  
mit to the clinical observation and in-  
spection of the class, will, during the  
lecture season, be operated upon gratui-  
tously. Many important operations  
are performed on the living subject,  
and the whole theory and practice are  
carefully taught, and illustrated on the  
cadaver. Physiology is illustrated with  
the Manikin, the most wonderful ex-  
hibition of art—an instrument by the  
aid of which an amount of knowledge  
that once required years to obtain, can  
be communicated in as many weeks.  
Pathology, diagnosis, and therapeutics,  
will be illustrated abundantly in the  
college. The principal articles of the  
Materia Medica, both crude and pre-  
pared, will be exhibited so constantly,  
as to enable the student to become ac-  
quainted with the agents he is to use  
in his profession. The chemical ap-  
paratus, the botanic garden, and a great  
variety of maps, diagrams, paintings,  
&c., complete the means of illustration.

We feel happy in assuring the pub-  
lic that we have, now, associated with  
us, gentlemen who will answer every  
reasonable expectation. And we are  
all determined to give the community,  
particularly the friends of medical re-  
form, an opportunity to remove from  
the general practitioners of the new  
system, the popular charge of igno-  
rance and empiricism. Will you sus-  
tain us? We shall see!

The lectures in this University will  
commence on the first Monday in  
November, at the College Edifice, on 3rd  
Street, between Broadway and Lud-  
low, and continue four months.—  
There will be at least five REGULAR  
LECTURES, daily, for five days in  
each week; (Saturdays being occupied  
by the Medical Society connected with  
the college,) and occasionally, an extra  
evening lecture, on miscellaneous sub-  
jects collaterally connected with medi-  
cal science.

As there will be no summer course  
hereafter, those who desire the advan-  
tages of this Institution will avail  
themselves of the WINTER SEASON.

The fees for a full course of Lectures,  
Matriculation included, amount to  
\$20, in advance. Diploma, \$20. A

full course of Lectures will be deliver-  
ed on Dental Surgery by an able Den-  
tist of this city, for which an addition-  
al fee of \$5, will be charged. Good  
boarding can be obtained at from \$2—  
to \$2.50 per week.

The Text Books will be consulted  
authoritatively as far as they are de-  
scriptive of diseases—the actual condi-  
tion of parts—or the preparations; but  
the PRACTICE taught will be on RURAL  
BOTANIC PRINCIPLES. Botanic prac-  
titioners cannot be too highly educated.  
We wish no half-way men, but those  
who have sufficient tenacity to take  
a bold and decided stand for progres-  
sive medical reform; and such as will  
not use a MIXED PRACTICE to suit cus-  
tomers.

The facilities in this Institution, for  
acquiring a thorough and correct medi-  
cal education are most ample in all the  
departments; and dissections, opera-  
tions, illustrations, and experiments,  
will be conducted on the most liberal  
and extensive scale, and in such a  
manner as to afford all students, both  
seniors and juniors, the best possible  
accommodations.

The friends of Medical Reform are  
respectfully requested to preserve, and  
forward to the Anatomical Cabinet of the  
College, all the interesting specimens  
of morbid anatomy which they may be  
able to obtain—and to favor the re-  
spective professorship with useful  
preparation calculated to facilitate il-  
lustrative teaching in various depart-  
ments.

A RARE OPPORTUNITY TO SUBSCRIBE!

THE LADIES'

NATIONAL MAGAZINE.

EDITED BY MRS. ANN S. STEPHENS.

Postage reduced to four and a half cents.

THE new volume, beginning with  
July, when the reduction of postage  
occurs, the publisher is led to be-  
lieve that large numbers will avail  
themselves of this opportunity to sub-  
scribe to the best of the ladies' maga-  
zines! He has accordingly determined  
to improve his periodical greatly, in  
order to make it doubly worthy of sup-  
port.

A GREAT INDUCEMENT.

Until the first of July post-masters  
are allowed, by law, to frank as here  
before. This will afford ample time to  
send remittances, free of postage, if  
neighbors and others are prompt in  
getting up clubs. We shall give as  
much original matter, each month, as  
the four numbers of a weekly news-  
paper, besides our costly plates extra.

BEST AUTHORS IN AMERICA.

In its literary this periodical stands  
first for the sex. Its contributions are  
all original, chiefly by American fe-  
males, though the best writers of the  
other sex are also engaged. No other  
magazine is so exclusively a mirror of  
woman's mind, or so thoroughly de-  
voted to her tastes and interests. The  
editorial department is still in the  
hands of Mrs. Ann S. Stephens, THE  
FEMALE SCOTT OF AMERICA, whose tales  
and novels, written originally for us,  
are confessed to be without equals.—  
She is assisted by Mrs. Lydia H. Sig-  
ourney, Mrs. Osgood, Ellet, Peirson,  
Dinwiddie, Orne, and all the American  
writers of both sexes, who are perma-  
nent contributors. This is the only  
Magazine for Two Dollars which gives  
Original articles. Our Domestic Sto-  
ries by Ellen Ashton, F. E. F., and o-  
thers, inculcating instructive morals,  
have unrivalled popularity, and with  
our "Tales of the Revolution," illustrat-  
ing American history, from a striking  
feature. Our aim is to give this Ma-  
gazine a national character, as well as  
to make it the best of the ladies' books!  
And in these the press declares we  
have succeeded.

THE HOME DEPARTMENT.

To render our periodical a Family  
Magazine, as well as a lady's book, we  
give, every month, New Receipts for  
Housewives, Patterns for Embroidery,  
Lace Work, &c. &c.; thus making a  
sort of *vade mecum* indispensable to  
every female, but especially to those  
in the country who would learn the  
latest improvements in the city.

A USEFUL HINT.

The lady in Iowa, as well as the one  
east of the Alleghanies, by taking this  
periodical, will know the latest fash-  
ions, the newest receipts, the improve-  
ments in fancy-work, &c., as soon as  
the inhabitant of the eastern city. Be-  
sides, she will have the best original  
stories written by her own sex, a thor-  
oughly American literature, and a se-  
ries of superb engravings at the close  
of the year, worth, even for a scrap  
book, twice as much as the subscrip-  
tion price. No Magazine is so much  
a "Ladies' Companion," so thor-  
oughly a "Home Book," yet so fitted for the  
"Boudoir!"

The subscriber rigidly adheres to the  
cash system; and it is by this means he  
is enabled to publish his magazine for

lowing are the terms:—

THE SOUTHERN LITERARY  
MESSENGER.

"The Blackwood of America." Five  
dollars, a year, in advance. B. B. Mi-  
nor, editor and proprietor, assisted by  
Americus South.

On the 1st of January next, (1845,) the  
Southern Literary Messenger com-  
mences its Eleventh Volume, and the  
patronage of the public is respectfully  
solicited for it. The present Editor  
has now conducted it for more than a  
year, and the encouragement he has  
received leads him to expect a large  
increase of subscription. As the work  
has been sustained, under no ordinary  
disadvantages, for so long a time, it is  
entitled to the liberal support of every  
friend of Letters. Its reliance for patron-  
age will be upon the interest and  
justice of the public and its own literary  
merits. Eschewing all humbugs  
and extrinsic flourishes, it will depend  
for its success upon its contents and  
character alone.

It is emphatically a Southern work  
and appeals expressly to the South,  
whose character and interests, litera-  
ry and social, it aims to uphold and  
promote. In the South there are thou-  
sands, who can easily afford it, and  
they are particularly urged to come  
forward and assist in increasing its  
circulation.

The Messenger has now been es-  
tablished more than TEN YEARS, during  
which it has overcome MANY  
GREAT OBSTACLES; and attained a wide  
circulation and a very high character.  
The efforts of the present Editor will  
be strenuously directed, not only to  
the PRESERVATION OF ITS ANCIENT FAME,  
but also to its CONSTANT IMPROVEMENT.  
In this, the flattering testimonials he  
has received during the last twelve  
months, lead him to believe that he  
has already succeeded.

AN ORIGINAL PREFACE BY H. C. WATSON.

THIS important and truly sterling

hitherto been much needed in our  
Literature; namely, a HISTORY OF  
MUSIC,—POPULAR, but COMPRES-  
SIVE. Such a work is the one now offered.

the Greeks and among the Romans.—

Fanciful Theories of much interest  
respecting the Origin of Music, with  
Anecdotes of the Old Philosophers, and  
other noted Men of Antiquity. THE  
MUSIC OF THE MIDDLE AGES—its  
Preservation by the Church—the Trou-  
badours; King Thibaut—Blondel—  
Chatelet de Concy—Invention of No-  
tation and Contra-point—the Church

land, during the 17th Century—Orig-  
in of the Opera—Lives and Anecdotes  
of Musical Composers, embracing every  
name worthy of mention from the  
14th Century to the Present Date, with

Music in every part of Europe.

the country.

THE NEW YORK MIRROR.  
A Weekly Journal of Literature and  
the Fine Arts.

PUBLISHED EVERY SATURDAY MORNING  
Vol. 2 of the New Series.  
Will commence the first week in April  
1845.

IT is more than double its original  
size, and is afforded at a little more  
than half its former price. This ren-  
ders it not only the cheapest but the  
most desirable periodical of the age.—  
At the end of it forms two ponderous  
volumes, enriched with the literary  
genius of Europe and America, for which  
title pages and tables of contents will  
hereafter be furnished.

The Mirror is as faithful a history of  
the week's opinions, news, pleasures,  
politics, literature, and all manner  
of bringings forth, as the Editors and  
their many assistants can possibly bring  
together—completed, as an arduous  
daily task of compilation, research and  
comment. It has also the essentials  
and the spice of Foreign News, and, in  
short, the most comprehensive budget  
that can be made up of each week's do-  
ings, the world over! Those who can-  
not afford a daily, or who live in the  
country where they do not care for ad-  
vertisements, or who want a paper that  
tells them everything once a week, will  
find the Weekly Mirror exactly to their  
mind.

It is a work which no family should  
be without, as the trifling price at which  
it is sold, places it within the reach of  
all persons disposed to foster a national  
literature. The New York Mirror has  
received the universal commendation  
of the public Press and the un-  
derstanding support of all classes of the  
community. As a weekly companion  
it is a welcome visitor to families thro'-  
out the country; and as an "annual" it  
is preserved in their libraries, as a valu-  
able gift to posterity. Although de-  
signed as a work for both sexes, the  
MIRROR possesses peculiar attractions  
for the LADIES OF AMERICA, with whom  
it is the most popular miscellany ever  
published. It is sent by mail to sub-  
scribers residing in all quarters of the  
United States, at newspaper postage  
only, which is another advantage that  
the present possesses over all other edi-  
tions of the MIRROR. Those who order  
it direct from the publishers in New  
York will receive it with the utmost  
punctuality and dispatch, and all pos-  
sible masters will readily forward the price  
free of all charge to the publishers.—  
Two copies of the work are sent to one  
address for five dollars, to any part of  
the United States or to the Canadas.—  
When the trifling cost of this noble  
weekly is considered, its great and in-  
creasing popularity is readily account-  
ed for. Postmasters are authorized to  
forward the amount of subscription  
free—and they will oblige us greatly  
by so doing.

PROSECUTION!

OR NO PROSECUTION!

TRUTH TRIUMPHANT!—Not-  
withstanding the threats and  
machinations of those who dread ex-  
posure, CHILDPIRT WITHOUT  
PAIN, recommended by the Faculty,  
is now published by HENRY C. DAG-  
GERS, No. 30 Ann-street. Price only  
50 cents.

The Publisher is determined that  
no system of brow-beating shall effect  
the suppression of a work which is  
certainly destined to benefit thou-  
sands—to avert danger at the most  
critical period of the life of woman—  
and preserve the blessings of mater-  
nal care to many a helpless child who  
would otherwise be an orphan. The  
press have in every case been most  
flattering to the author.

The True Sun says—"This is a ve-  
ry able work on a very important sub-  
ject—a work which ought to be in  
the hands of every wife in the country.  
It is written in a philosophical spirit,  
and in such familiar language at the  
same time, as renders it universally  
intelligible. Much suffering may be  
entirely prevented by a careful perusal  
of the directions here given. The  
book is beautifully got up with gilt  
edges, and costs only 50 cents.

"It is the production," says the  
Tribune, "of a lady of New York, of  
stern integrity and thorough acquain-  
tance with her subject, and its worth  
and importance are certified by some  
of our most eminent physicians. We  
see by the True Sun, that the publish-  
er has been threatened with the pains  
and penalties of the Law of Libel, on  
account of some exposures incidentally  
made in it of the horrible iniquities  
daily committed in our city by the  
monsters who are amassing wealth by  
deceiving ignorant and silly women in  
matters of life and death. We would  
agree to pay all the damages that can  
be recovered by Restell & Co. for a  
brass farthing."

The New York Herald says—"This  
is a very able work, by the author of  
"Intellectual and Moral Qualities  
Transmissible," abounding in facts,  
that all should become acquainted with  
—male and female. It is a happy ex-  
posure of some of the most cold blood-  
ed and dastardly systems of murder  
that ever cursed a country. The spir-  
ited publisher deserves credit for his  
timely publication."

"It is truly a valuable work," says  
the Rover, "and contains many philo-  
sophic truths, simply and plainly  
told, of the highest importance. We  
understand that one Madame Restell  
has threatened to put an injunction  
upon its publication, as being a libel  
upon her profession—but we can

tell the enterprising publisher to go  
head—for six cents we will agree to  
pay all damages. The work is of such  
great merit, that it should not be with-  
held from the public longer than pos-  
sible."

Such evidence as this in favor of  
"CHILDPIRT WITHOUT PAIN" cannot  
be resisted. The work is now be-  
fore the public, and it is believed its  
merit will be appreciated.

An Edition put up for the Mails  
will be sent to any part of the country.  
Postage only 2 cents.

Country Editors, who copy  
this advertisement, will receive the

THE NEW ORLEANS WEEKLY

BULLETIN—published every Sat-  
urday, from the office of the New Or-  
leans Commercial Bulletin—price,  
three dollars a year. With a view to  
give this publication greater value for  
circulation in the interior, and espe-  
cially to recommend it to the Planting  
interest, the proprietor has engaged a  
distinguished chemist and proficient in  
science to furnish a series of essays on  
the adaptation of chemistry and the  
kindred sciences to the improvement  
of agriculture. This subject is awak-  
ening extraordinary interest both in Eu-  
rope and America, and the discoveries  
which have been made bid fair to  
work a revolution in rural pursuits.

The essays above spoke of, are de-  
signed to be practicable in their char-  
acter, and especially adapted to the south-  
west. The publication of them has  
already commenced, will be continued  
at short intervals. A series of letters  
on the general progress of scientific dis-  
covery, from a gentleman whose pur-  
suits are entirely of a scientific nature  
have also been engaged. These letters  
it is proposed to publish at intervals of  
a month or six weeks. They are de-  
signed to furnish a historical and con-  
nected account of all important im-  
provements, inventions and discoveries, as  
they transpire. The publication of  
these last named papers will probably  
commence about 15th of May next.

The value and interesting essays  
above spoken of, are intended of course  
to be in addition to the ordinary con-  
tents of the paper, which comprise a  
full and accurate chronicle of all  
events of importance; political, com-  
mercial, shipping and miscellaneous  
intelligence; public documents of  
importance, both state and national;  
reviews of the home and foreign mar-  
kets, &c. &c. An abstract of the de-  
cisions of the supreme court of Louisi-  
ana, prepared by the reporter to the  
court, is still published in the Bulletin  
as the decisions are delivered and be-  
come final. Attention is also given to  
important decisions in the federal  
courts, and in the superior courts of  
the different states. The price of the  
Weekly Bulletin is three dollars a  
year, when payment is made in ad-  
vance at the office, or remitted without  
expense to the publisher. In other  
cases five dollars is charged.

To Travellers.

BENJAMIN S. TIPTON, having  
located himself at Williams' Fer-  
ry, on Big Black, on the road from  
Kosciusko to Yazoo City, and having  
put the road across the swamp in good  
order, takes this opportunity to inform  
the public generally, that he will at all  
times be in readiness to accommodate  
that portion of the travelling public  
who may find it for their interest to  
give him a call, by keeping a good fire  
and an attentive ferry-man. Thank-  
ful for past favors, he still hopes  
by strict attention, to merit a share  
of public patronage. Charges at low  
water as follows:—
